

Tendering Procedure via Contract Notice

When initiating a Call for Tender, a Contract Notice is published specifying the required volumes for each service and inviting interested suppliers to apply. The procedure to follow and the list of documents that must be provided are detailed in this Contract Notice.

After the Call for Candidates phase, Elia launches a Call for Tender to which only qualified candidates can participate. All concerned documents along with the contract proposal are communicated at the moment of the Call for Tender.

Step1: Call for Candidates

Prior to making an offer, a party should apply to become a selected Supplier. A candidate supplier can apply by submitting a completed application form and the required sworn statement for the applicable service to Elia. The application form and a template for the Sworn Statement can be found in the Document Library.

Step 2: Call for Tender

In order to participate to a Call for Tender, an offer has to be written following the bidding instructions. Bidding instructions and contract templates can be consulted in the Document Library.
