

Active Closed Distribution Grids Connected to the ELIA Grid Identification for Nomination Purposes

Situation on August 1st, 2024

Reminder:

- ❑ Schedules related to offtakes located into active closed distribution grids connected to the ELIA Grid must be submitted per closed distribution grid.
- ❑ The EAN code (18 characters) mentioned here below is the one for the CDS Network. Please do not mix-up with the EAN code (13 characters) used by the Distribution Grid Operators.

Introduction of load forecast nominations:

For B2B users: only the EAN code (see list below) must be completed in the field “Offtake Point”.

For B2C users: the combo-box for “Offtake Point” will give the display name (see list below) and mention the EAN code.

| EAN | Global Access Point |
|--------------------|---|
| 541453176864035840 | BASF Antwerpen |
| 541453113445516046 | CDS ArcelorMittal Belgium _ Marchin |
| 541453118417028657 | CDS ArcelorMittal Belgium _ Ramet |
